

Lost In Thought

ISSUE ELEVEN—19 JULY

THEME: TECHNOLOGY

Binary Puzzle

Can you place a 1 or a 0 in every square following these rules:

- 4 ones and 4 zeroes must be in each row and column
- You can't have more than 2 of the same number in squares next to each other in the same row or column (see diagram)

1	0	1
1	1	0
1	0	1

Impossible

1	0	1
1	1	0
0	1	0

Possible

				1		1	1
	0	1		1			
1		1			1		
			1	0		1	0
1	0						1
	0		1			0	
		0	0				0
				0		0	

Codebreaker!

Hmmm... I was sent this message on my phone, but it is in some sort of code. Can you figure out what it says?

Apparently everything you need is on the phone...
